

Product Guide

2007

D I S T R I B U T O R S O F

Message from our Chairman

I am pleased to introduce to you the new Kincrome 2007 Product Guide.

As a proudly Australian owned family business we are continuing our growth through acquisition, innovative product releases and a purpose-built hi-tech warehouse and showroom.

Acquisitions:

LISLE - The acquisition of the distribution rights for the LISLE specialty automotive tool range

ensures Kincrome is the ONLY distributor of this icon brand throughout Australia.

FINKAL - In addition to the distribution of the FINKAL range of Punches, we have now purchased the brand name FINKAL. Watch for new and innovative products in the future.

Product Releases:

The Series 3 Tool Box range exhibits state-of-the-art design and features.

Kincrome Spanners - Rated stronger, lighter and better quality than any we have tested against.

Torque Master Screwdrivers - Stronger S3 SVCM alloy steel.

Tool Kits - Incorporates the Series 3 Tool Boxes and have stronger, 2mm PVC trays, are well organised, easily identified, secure and locked away.

For further information on these and all our products visit www.kincromegroup.com, and watch for new releases during the year.

I trust you will find this Product Guide a useful and valuable resource.

The Kincrome Group values your support and gives you our promise that we will continue to source new and innovative products for you and your customers.

I welcome your feedback and invite you to visit us at our new Warehouse and Showroom in Scoresby, Victoria.

Yours Sincerely,

These Terms and Conditions of Sale are the only basis upon which Goods will be supplied by Kincrome to Purchasers. By placing an Order with Kincrome, a Purchaser agrees to accept, and comply with, each of these Terms and Conditions of Sale.

1. Definitions and Interpretation

1.1 In these Terms and Conditions of Trade, unless the context otherwise requires:

- (a) "Cash Sales" means sales of Goods, payment for which is made at, or before, Delivery of the Goods;
- (b) "Credit Sales" means sales of Goods, payment for which is due or made after Delivery;
- (c) "Delivery" means delivery to the Purchaser pursuant to an Order;
- (d) "Goods" means products and any services supplied or to be supplied by Kincrome to a Purchaser from time to time;
- (e) "Loss" means any delay, loss, liability, damage, expense or cost whatsoever and includes (without limitation) direct or consequential loss or damage;
- (f) "Order" means any order or request for Goods or services irrespective of whether or not the Order is in writing;
- (g) "Purchaser" means any person who places an Order with Kincrome and includes such person's agents, employees, executors, administrators, successors and permitted assigns;
- (h) "Terms" means these Terms and Conditions of Sale; and
- (i) "Kincrome" means Kincrome Australia Pty Limited (ABN 41 007 185 006), its successors and assigns, of the address appearing on the invoice issued in respect of Goods supplied.

1.2 Nothing in these Conditions shall be read or applied so as to restrict or modify or have the effect of excluding, restricting or modifying any condition, warranty, guarantee, right or remedy implied by law in Australia (including the Trade Practices Act 1974) and New Zealand (including the Consumer Guarantee Act 1993 and Fair Trading Act).

1.3 In these Terms, the singular includes the plural and vice versa, and a reference to a "person" includes a company, partnership or trust.

2. General

2.1 These Conditions (which shall only be waived in writing, signed by Kincrome) shall prevail over all other conditions of the Purchaser's orders as to the extent of any inconsistency.

3. Terms of Sale

3.1 The Goods are sold on these Terms and Conditions.

4. How a Contract with Kincrome is formed

4.1 Each Order placed by a Purchaser amounts to an offer by it to acquire from Kincrome the Goods described in the Order upon these Terms. Kincrome will accept the offer by delivering or providing all or some of the Goods ordered. Kincrome reserves the right to refuse any Order within seven (7) days of receipt of the Order.

4.2 The Purchaser agrees that all Goods it orders are for the purposes of business and not for private or domestic use. The Purchaser acknowledges and agrees that Kincrome relies upon this representation in agreeing to deliver or provide those Goods.

4.3 Kincrome may refuse to sell or supply Goods to the Purchaser (whether as Cash or Credit Sales) and is not required to give reasons for its refusal.

5. Delivery/Provision of Goods

5.1 Even though an Order specifies a quantity of Goods required, and a delivery date, and Kincrome accepts the Order, the Purchaser agrees that Kincrome is not bound to deliver that quantity on the delivery date so specified. However, Kincrome will use all reasonable endeavours to do so.

5.2 Kincrome may deliver only a portion of the quantity of Goods ordered and may invoice the Purchaser for that portion, unless the parties agree otherwise in writing. The Purchaser may not refuse to accept delivery of particular Goods just because Kincrome has delivered only a portion of the quantity ordered or because delivery was late. However, if delivery is late, the Purchaser may cancel an Order relating to Goods provided it does so before they are delivered and no later than seven (7) days after placing that Order with Kincrome (or such longer time as Kincrome and the Purchaser may agree from time to time).

5.3 Unless notified in writing by the Purchaser all Goods will be delivered to the address on the Purchaser's Order.

5.4 Kincrome will not be liable for any Loss incurred or suffered by the Purchaser as a result of any delay in delivery of Goods.

5.5 If Kincrome delivers any portion of Goods which is found to be defective for any reason:-
(a) it is not a repudiation of the Contract of Sale formed by these Conditions; and

(b) the defective is a severable breach which gives rise only to claim for compensation.

6. Price and Payment

6.1 Unless otherwise stated, all Prices quoted by Kincrome are net and exclusive of all Goods & Services Tax ("GST"), sales tax, transport costs and any other costs payable in respect of the supply of the Goods.

6.2 Prices for Goods quoted on price lists may be varied at any time without notice Goods will be invoiced at the then current price for those Goods as at the date of delivery.

6.3 A price list or product catalogue of Kincrome is not an offer by Kincrome to sell any Goods appearing in that list or catalogue, nor is it an offer to sell such Goods at the price specified in that list or catalogue.

6.4 Kincrome reserves the right to charge a surcharge on any Goods as it deems fit.

6.5 The Purchaser agrees that the amount payable by it for the supply of Goods will be the total of the price quoted by Kincrome for the Goods, including any GST, transport costs, sales tax and other costs payable in respect of the supply of those Goods.

6.6 Unless otherwise agreed by Kincrome in writing, the Purchaser must pay for all Goods in cash to Kincrome without deduction at the time of delivery. However, Kincrome may, at its sole discretion grant credit to a Purchaser. If credit is granted, payment will be due at the time that is notified in writing on the face of any invoice evidencing the delivery or provision of Goods. If, and only if, there is no such time notified or other specific and written agreement then payment must be made in clear funds on or before the last business day of the month following the month in which delivery of Goods was made.

6.7 Kincrome reserves the right at any time to require immediate payment for all Goods supplied or provided. Payment for those Goods will be due immediately upon receipt by the Purchaser of a notice from Kincrome that it requires immediate payment.

6.8 Kincrome reserves the right to make a reasonable charge for storage if delivery instructions are not provided by the Purchaser within seven (7) days of a request by Kincrome for such instructions. The parties agree that Kincrome may charge for storage from the first day after Kincrome requests the Purchaser to provide delivery instructions.

6.9 The Purchaser agrees that in respect of payment under these Terms, time is of the essence.

7. Default in Payment

7.1 If the Purchaser fails to pay any amounts due to Kincrome under this agreement, Kincrome may charge interest on all amounts overdue at the interest rate fixed from time to time pursuant to section 2 of the Penalty Interest Rate Act 1983 (Vic). That interest may be charged and accrue from the first day on which such amounts become overdue until Kincrome receives effective payment of all such amounts (including interest charged under this clause).

7.2 In recognition of the seasonal nature of the business activities of certain Purchasers, Kincrome may by separate agreement, grant special or deferred terms. If interest is charged by Kincrome to the Purchasers under those special arrangements then upon any failure to pay in accordance with those special arrangements by the Purchaser, the default rate shall be 2.5% per annum above the rate charged in that special arrangement, or the rate determined under clause 5.1 - whichever is the greater - and interest will be charged and accrue until Kincrome receives effective payment of all amounts (including interest accruing under this clause) due under that special arrangement.

7.3 If Kincrome incurs any cost relating to the collection or enforcement of payments from the Purchaser. The Purchaser agrees that those monies will form part of the debt due to Kincrome and payment will be made by the Purchaser to Kincrome on demand.

8. Title to Goods

8.2.8.1 Title to the goods delivered by Kincrome Pty Limited shall only pass to the Purchaser upon payment in full by the Purchaser for all of the goods (providing that in the case of tender of a cheque, payment shall not be deemed to be made until the cheque has been honoured). Notwithstanding that title remains with Kincrome Pty Limited until payment in full is received, the risk in the goods passes to the Purchaser upon delivery. The Purchaser must insure the goods from the date of delivery to the date the title in the goods passes to the Purchaser.

8.3 Until title to the goods passes to the Purchaser Kincrome reserves the following rights and the following shall apply:

- (a) The Purchaser shall hold the Goods solely as fiduciary for Kincrome Pty Limited and whereas in possession of the Goods, as bailee of those Goods and owes Kincrome the duties and liabilities of the bailee;
- (b) The Purchaser shall store the goods separately from its own goods and those of other persons and in such manner as will clearly identify the goods as the property of Kincrome Pty Limited;

(c) Despite 8.3(a) and (b) above, if the Purchaser supplies any of the Goods to any person before all monies payable by the Purchaser have been paid by Kincrome, the Purchaser agrees that it will hold the entire proceeds of the sale or any other proceeds arising from the Goods or any insurance claim regarding the Goods in a separate bank account in trust for Kincrome;

(d) In the event that the Purchaser fails to pay for goods within normal terms of trade or the Purchaser enters into liquidation, administration, has a receiver, receiver and manager or mortgagee in possession appointed or becomes insolvent or the supply contract is terminated, then any credit terms which the Applicant has with Kincrome will cease immediately and all amounts owing by the buyer to Kincrome will become immediately due and payable and Kincrome without prejudice to its other rights in contract or general law may, subject to any law to the contrary, repossess the goods and the Applicant hereby licenses Kincrome, its servants and agents to enter the Applicant's premises at any time without notice in order to search for, inspect and/or repossess the goods. Kincrome shall have the right to sell or dispose of such goods removed or otherwise in its sole discretion and shall not be responsible for any loss occasioned thereby.

9. Returns

9.1 Subject to clause 9.2, Kincrome may, at its discretion, accept Goods submitted for return by the Purchaser upon those Terms as are notified by Kincrome to the Purchaser. No returns of Goods will be accepted by Kincrome unless those Goods are returned undamaged and in a re-saleable condition and within seven days of Delivery.

9.2 Kincrome will (if requested to do so by the Purchaser) accept returns of Goods upon mutually agreeable terms where there has been a breach by Kincrome of any warranty conferred by law with respect of the Goods. Where the return of Goods are accepted by Kincrome under this clause, Kincrome's liability to the Purchaser is limited, at Kincrome's discretion to either;

- (a) replacing those Goods with equivalent Goods; or
- (b) paying or crediting the Purchaser the cost of acquiring equivalent Goods.

9.3 If Kincrome agrees to accept the returned Goods from the Purchaser, the Purchaser accepts that it shall be responsible for payment of all transportation and freight costs in having the Goods returned to Kincrome.

9.4 The Purchaser agrees that Kincrome is entitled to charge a Re-Stocking Fee equal to 20% of the invoice value of any Goods returned to and accepted by Kincrome.

9.5 All tool boxes must be inspected at time of delivery and claim for damages must be made within 36 hours of delivery. After this time no claim will be accepted.

10. Description of Goods

10.1 All Goods to be supplied by Kincrome to the Purchaser are as described on the Purchase Order agreed by Kincrome and the Purchaser and the description of such Purchase Order modified as so agreed, prevails over all other descriptions, including any specifications or enquiry of the Purchaser.

10.2 Kincrome will use all reasonable endeavors to procure and supply goods in accordance with samples provided to Purchasers or otherwise included by it any price lists, pamphlets or other documents. Notwithstanding that those samples and descriptions are given by way of identification only and the use of those descriptions or the reference to those samples will not constitute a sale under these Terms as a sale by description or by reference to sample but will constitute a sale of specific Goods as delivered to the Purchaser.

11. Performance

11.1 Any performance figures given by Kincrome are estimates only. Kincrome is under no liability for damages for failure of Goods to obtain such figures unless specifically guaranteed in writing. Any such written guarantees are subject to the recognised tolerances applicable to such figures.

12. Packing

12.1 The cost of any special packing and packing materials used in relation to the Goods that are at the Purchasers expense, notwithstanding such costs may have been omitted from any purchase order or quotation.

13. Drawings Etc

13.1 All specifications, drawings and particulars of weights and dimensions submitted to the Purchaser by Kincrome are approximate only and any deflation from any of these things does not vitiate any contract with Kincrome or form grounds for any claim against Kincrome.

13.2 The descriptions, illustrations and performances contained in catalogues, price lists and other advertising matter do not form part of the contract of sale of the Goods or the description applied to the Goods.

14. Warranty

14.1 Kincrome's liability for goods manufactured by it is limited to making good any defects by repairing the defects or at Kincrome's option by replacement, within a period not exceeding twelve (12) calendar months after the goods have been dispatched so long as:

- (a) defects have arisen solely from faulty materials or workmanship;
- (b) the goods have not received maltreatment, inattention or interference;
- (c) accessories of any kind used by the Purchaser are manufactured by or approved by Kincrome;
- (d) the seals of any kind on the goods remain unbroken; and
- (e) the defective parts are promptly returned, freight paid to Kincrome.

14.2 Items excluded from the guarantee:

- (a) sockets used on impact guns;
 - (b) screwdrivers used as chisels or tyre levers
 - (c) ratchet handles that have been affected by normal wear and tear or that have been dented, grooved and broken;
 - (d) circlip plier tips;
 - (e) extension bars and flex handles that have had pipe applied for extra leverage or have been struck with a hammer;
 - (f) tool boxes;
 - (g) tap and dies;
 - (h) hexagon keys;
 - (i) power driving bits and impact driver bits;
 - (j) cold chisels and pin punches;
 - (k) screw extractors;
 - (l) drill bits;
 - (m) Torx bits*
 - (n) All power products are guaranteed for three months from date of purchase
 - (o) castor wheels / creeper wheels
- (*Torx is a registered trademark of Camcar/Textron Inc.)

14.3 If the goods are not manufactured by Kincrome the guarantee of the manufacturer of those goods is accepted by the Purchaser and is the only guarantee given to the Purchaser in respect of the goods. Kincrome agrees to assign to the Purchaser on request made by the Purchaser the benefit of any warranty or entitlement to the goods that the manufacturer has granted to Kincrome under any contract or by implication or operation of law to the extent that the benefit of any warranty or entitlement is assignable.

14.4 Kincrome is not liable for and the Purchaser releases Kincrome from any claims in respect of faulty or defective design of any goods supplied unless such design has been wholly prepared by Kincrome and the responsibility for any claim has been specifically accepted by Kincrome in writing. In any event Kincrome's liability under this paragraph is limited strictly to the replacement of defective parts in accordance with paragraph 14.1 of these conditions.

14.5 Except as provided in these conditions, all express and implied warranties, guarantees and conditions under statute or general law as to merchantability, description, quality, suitability or fitness of the goods for any purpose or as to design, assembly, installation, materials or workmanship or otherwise are expressly excluded. Kincrome is not liable for physical or financial injury, loss or damage or for consequential loss or damage of any kind arising out of the supply, layout, assembly, installation or operation of the goods or arising out of Kincrome's negligence or in any way whatsoever.

15.1 Kincrome's liability for a breach of a condition or warranty implied by Division 2 of Part V of the Trade Practices Act 1974 (Australia) (other than section 69) and equivalent provisions in the Consumer Affairs Act (New Zealand) is limited to:-

- (a) in the case of goods, any one or more of the following:
 - (i) the replacement of the goods or the supply of equivalent goods;
 - (ii) the repair of the goods;
 - (iii) the payment of the cost of replacing the goods or of acquiring equivalent goods;
 - (iii) the payment of the cost of having the goods repaired; or
- (b) in the case of services:
 - (i) the supplying of the services again; or
 - (ii) the payment of the cost of having the services supplied again.

16.1 Kincrome's liability under section 74H of the Trade Practices Act 1974 (Australia) and equivalent provisions in the Consumer Affairs Act (New Zealand) is expressly limited to:-

- (a) the cost of replacing the goods;
- (b) the cost of obtaining equivalent goods; or
- (b) the cost of having the goods repaired, whichever is the lowest amount.

17. Matters beyond the control of Kincrome

Kincrome will not be liable for any Loss suffered by the Purchaser as a result of a failure to observe any of these Terms or as a result of any delay in performance of any obligations due to any cause or circumstances beyond Kincrome's control including but not limited to any failure or delay in performance caused by any strikes, lock-outs, labor disputes, fires, acts of God or public enemy, delays in transport, breakdown in machinery, restrictions or prohibitions by any government or any semi-government authorities, embargo's or any other events beyond Kincrome's control wherever and whenever they occur.

18. Entire Agreement

Any contract between Kincrome and the Purchaser for the supply of Goods will be governed only by these Terms. Kincrome will not be bound by any terms and conditions that do not appear in these Terms or are inconsistent with these Terms. However, Kincrome may amend the Terms from time to time, but those amendments will not take effect until Kincrome has notified the Purchaser in writing of those amendments. Any Orders placed with Kincrome after the Purchaser has been notified of amendments to the Terms will be deemed to be offers to acquire Goods upon the amended Terms.

19. Assignment

The Purchaser may not assign, transfer or otherwise dispose of any of the rights or obligations of this or any other contract with Kincrome that is subject to these Terms without the prior written consent of Kincrome.

20. Waiver

Kincrome may make concessions with respect to the operation of these Terms. Those concessions will be of no legal effect unless they are in writing, and will:

- (a) be the nature of a single concession or indulgence; and
- (b) not constitute any general or future waiver or intent to waive with respect to any future occurrence or event.

21. Severance

In the event of the invalidity of any provision of these Terms that provision (the "Relevant Provision") is to be severed from the valid provisions of these Terms and the invalidity of the Relevant Provision will not effect the application of the remaining parts and provisions.

22. Notices

Any notice given under these Terms must be in writing and may be given by hand delivery, pre-paid ordinary post or by facsimile transmission. A notice will be deemed to have been received by the person to whom it was sent:

- (a) in the case of hand delivery, upon delivery;
- (b) in the case of pre-paid ordinary post, three days after the date on which it was posted; or
- (c) in the case of facsimile, upon the sender obtaining confirmation that the transmission was completed successfully.

23. Governing Law

These Terms are governed by and must be construed in accordance with the laws of Victoria, and each party irrevocably submits to the jurisdiction of the courts in that State.

24. Delivery Terms (GST INCLUSIVE)

Socket Sets & Accessories

**More Features - More Value
Same Kincrome Quality!**

Features

- Quick Release Ratchet
- Combination Wobble Extension Bar
- Tough Plastic Insert Tray
 - provides safe storage and easy selection
- Strong Metal Carry Case for extra security

- Kincrome Plus Sockets and Accessories are made from High Quality Chrome Vanadium Steel (CrV)
- Kincrome Plus Sockets with Peripheral Drive

15° Swivel Extension Bar

Is both straight & wobble bar all in one!
Includes hex nut end for increased torque.

Strong & Dependable

Kincrome Plus sockets and accessories use stronger core materials and a refined manufacturing process.

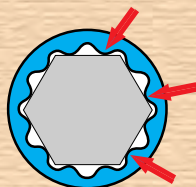

Conventional sockets are made to the shape of the fastener and may break or 'round-off' edges when pressure is applied. Kincrome sockets with Peripheral Drive provide greater torque by relocating the load to the stronger flat sides of the fastener and redistributing the pressure to stronger parts of the socket. This feature, combined with a greater surface area contact, improves torque and prevents 'rounding off' of the fastener.

Conventional Socket

Peripheral Drive Socket

Quick Release Ratchet

The push button quick release feature ensures that the socket is locked securely while in use, but also allows for easy removal or quick change of socket even with greasy or oily fingers.

Combination Extension Bar

This extension bar can be used either as a conventional straight bar or as a wobble bar providing 15 degrees of swivel for easier access. The hex nut end allows for the application of a wrench if additional torque is required.

Inserting the extension bar, halfway into the socket enables the operator to use this tool as a wobble bar. Pushing the extension fully into the socket locks it in the conventional "straight" position.

Kincrome Sockets

Greater Strength & Durability

Kincrome sockets use higher grade 6142 chrome vanadium alloy steel with increased carbon & alloy elements (vs 50BV30)

Thinner Walls

For improved access to recessed fastener heads

Knurled Ends

Improves finger grip & handling in greasy conditions

Smoother Finish

Precision grounding & outside trimming for smoother finish (competitors go to partial trimming)

Easy to Clean

- Chrome plate finish for corrosion protection
- Easy to keep clean

Longer Life & Reduced Breakage

- Single punch construction reduces weakness under pressure
- Kincrome torque is 200% of DIN versus standard competitors at 130%
- Sockets meet DIN 475, DIN 3121 & DIN 3120 International Standards

Kincrome Lifetime Guarantee

The Kincrome Group guarantees these products against faulty workmanship and materials. The Kincrome Group will, at their discretion, repair or replace faulty products free of charge. This guarantee does not cover products that have been altered, misused, abused or subjected to normal wear and tear. - Conditions Apply.

Spanners & Spanner Sets

New Kincrome Spanner Range

The new range of Kincrome Spanners has undergone exhaustive independent testing is now **80%** stronger than the ASME (American Society of Mechanical Engineers Standard) and **130%** stronger than the German DIN standard. The stronger, lighter and greatly enhanced quality of the Kincrome spanner range leaves many name brand competitors in its wake.

Improved features include a thinner head allowing the spanner to reach tighter areas, a rounder shaft for a more comfortable grip when applying greater torque, a lighter weight, and the shorter length decreases radial movement by up to 20%.

Construction of the new range is from forged Chrome Vanadium Steel (Cr-V) hardened, tempered and chrome plated with a slight satin finish for corrosion protection. Increased Molybdenum Manganese and Nickel content provide greater strength and corrosion resistance.

The new range is presented in innovative cylindrical packaging or traditional colour boxes. This sets our Spanners apart at the point of sale and maximises retailer's shelf space.

Manufacturing Materials

- **FORGED FROM CHROME VANADIUM STEEL (Cr-V)** – Our Spanner range has minimal sulphur content compared to other manufacturers. This is a benefit, as sulphur is an atmospheric pollutant, and therefore Kincrome is helping to save the environment.

- **SULPHUR** – Our Spanner range has minimal sulphur content compared to other manufacturers. This is a benefit, as sulphur is an atmospheric pollutant, and therefore Kincrome is helping to save the environment.

- **MANGANESE** – Our Spanner range has over 1000% more manganese than other brands. Manganese improves the strength, toughness, stiffness, hardness and wear resistance of steel.

- **NICKEL** – Our Spanner range has 3 times more nickel than other brands. Nickel assists in making steel corrosion resistant.

- **MOLYBDENUM** – Our Spanner range contains 100% more molybdenum than other brands. Molybdenum improves the strength of steel at high temperatures.

Plastic Hang Tags

Most Kincrome Spanners are displayed on a space saving plastic hang tag. The tag includes a sticker with the product description and barcode for easy reference.

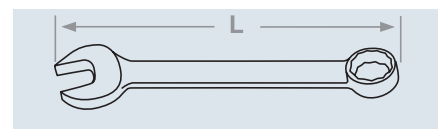

- Forged from chrome vanadium steel, hardened, tempered, chrome plated and polished with a light satin finish for corrosion protection.
- Ring and jaw offset at 15°
- Thinner head for hard to reach fasteners
- For heavy duty application
- Increased torque capacity
- Exceeds international ASME & DIN standards

Kincrome Reverse Gear Spanner

has the benefits of a ratchet and more. The strong fine gear ratcheting ring end needs as little as 5° of sweep to move a fastener, a standard fixed ring end needs a minimum of 30° or 6 times the area.

The Kincrome Reverse Gear Spanner offers high torque capabilities combined with outstanding quality and performance.

The ultra small head and shank design allow it into the tightest of places; places where a ratchet and socket will not fit. Kincrome Gear Spanner's fully hardened metal construction is extremely strong, meeting or exceeding DIN and ANSI torque specifications for a standard fixed style ring end spanner. The ratcheting ring end has a Peripheral Drive™ configuration that virtually eliminates the rounding of fasteners.

The reverse switch allows forward or reverse movement of the ratcheting end **without** removing the spanner from the fastener! This allows the user to complete a job faster and more efficiently. Another feature of the Kincrome Reverse Gear Spanner is the 13° offset angle of the ratcheting end. This provides greater clearance in the working area for the operators fingers.

This fine tooth gear design, combined with a narrow head and shank, enables the Kincrome Gear Spanner to be used in confined, tight working areas.

Kincrome Gear Spanners are manufactured from high quality chrome vanadium steel (cr-v) which is fully hardened and tested to meet or exceed the ANSI (American National Standards Institute) torque specifications.

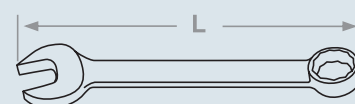

Kincrome Reverse Gear Spanner
- the 'top performer' in spanner technology.

Each Kincrome Reverse Gear Spanner is supplied with a convenient "Try-it" display plastic hang tag.

Pliers & Wrenches

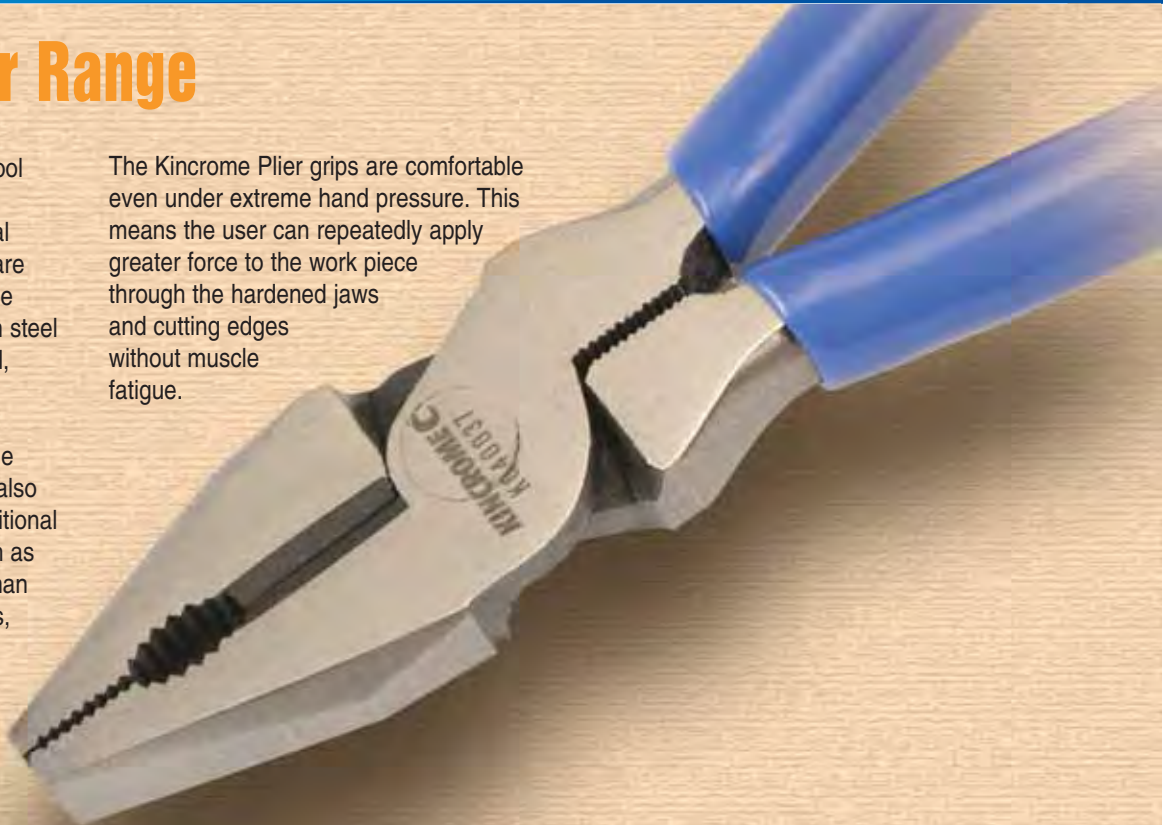

Kincrome Plier Range

The extensive Kincrome and Supatool Plier range includes conventional combination, long nose and diagonal cutting pliers. These popular pliers are designed to suit Australian workplace conditions. Forged from high carbon steel and tungsten high frequency treated, these pliers are built to last and are covered by the exclusive Kincrome Lifetime Guarantee. In addition to the conventional plier range, Kincrome also offer a comprehensive range of additional pliers to suit most applications, such as Multi-grips, Lock Grip Pliers, Linesman Pliers, Cable Cutters, Wire Strippers, Circlip Pliers, Tin Snips, Crimping Tools and more.

The Circlip Pliers come in external and internal straight jawed and bent jawed variations.

The Kincrome Plier grips are comfortable even under extreme hand pressure. This means the user can repeatedly apply greater force to the work piece through the hardened jaws and cutting edges without muscle fatigue.

Adjustable Wrenches

Greater Leverage

15° Offset provides greater leverage, compared to traditional 22.5° Offsets, reducing hand & arm fatigue.

The smaller offset also increases speed and precision in manoeuvrability of the fastener.

Precise Measurement

Super strong, precise in-house manufactured knurl with subtle chamfering on both ends enables easier turning with more safety – no sharp edges to hurt fingers.

Knurl engagement fixes the opening, making it unlikely to change between uses, unlike a standard wrench where constant adjustment is required.

Greater Jaw Width

18-25% wider jaw opening than some standard models for increased use with a larger range of fastener sizes.

User Friendly

Non-Protruding on the movable jaw end. This allows greater ease of use in tight spaces.

Stronger Handle

60% thicker handle provides a more comfortable hand fit. Ergonomically designed handle makes it easy to apply force without any pain when grasping the handle.

Measurement Scale

Uniform machined face with etched metric measurement scale allows the operator to measure and scale fasteners whilst in operation.

Manufactured to Kincrome Standards & Specifications

Made from Drop Forged Chrome Vanadium Steel, nickel plated. Because of its hardness, great tensile strength and torque ability, chrome vanadium steel is used in the production of many other hand tools.

Exceeding international standards, including:

ISO 6787-1982,

Screwdrivers & Fastening

Kincrome Screwdrivers

The Best Just Got a Whole Lot Better!

Featuring New S3 SVCM Alloy Steel, the new design TorqueMaster™ Screwdriver incorporates a Hexagonal shaft for those occasions when extra torque is required. The S3 shaft has been specifically engineered to support a wrench for added leverage. This screwdriver uses the highest quality components, including the popular TorqueMaster™ handle with 50% more turning power versus conventional screwdriver handles.

The unique ergonomic TorqueMaster™ Screwdriver dovetails with the hand and its pressure areas to transmit maximum torque.

New hexagon shaft allows additional tightening

- Silicone Vanadium Chrome Magnesium Alloy Steel (S3)
- Magnetic tip for greater fastener control
- New S3 engineered for maximum torque
- Hex shaft increases leverage and torque
- 50% more turning power versus conventional screwdriver handle
- Satin Chrome Plated shaft
- 150% stronger than DIN standards
- Anti-slip rubber grip dovetails in your hand
- Colour coded handle for easier functional identification

Kincrome Hammer Range

The Kincrome Hammer Range is a 'big hit' with the trade!

The 20oz (567gm) **Claw Hammer** is 345mm long and used for general carpentry work and nail pulling. It is the most popular style in the hammer range, ideal for the trade professionals and great for the handyman.

Features:

- Forged from carbon steel, hardened and tempered. Precision ground, polished head with chamfered edges.
- Mirror polished head.
- Innovative Hex Neck Design.
- Grained American straight grooved hickory handle.
- The seated head and handle joint blocks moisture for added strength and longevity.
- Patented non-slip laser notch grip.
- Rubber end cap reduces slippage from the hand and provides greater end of swing control.

The **Ball Pein Hammer** with the classic Hickory Shaft is used for riveting, centre punching and bending or shaping soft metal. It comes in 8oz, 16oz, 24oz, and 32oz sizes.

Features:

- Forged from high carbon steel, hardened and tempered, precision ground, polished head with chamfered edges.
- American straight grained hickory handle with rubber end cap and twin handle wedges.

The **Club Hammers** complete the range. They are used for powerful work, such as striking masonry nails, steel chisels and masonry drills. They come in 3lb and 4lb sizes, and when extra leverage is needed, the 4lb Club Hammer with a 443mm long handle is available. Forged from high carbon steel the precision ground head has chamfered edges and is anchored, like other hammers in the Kincrome range, to American straight grained hickory handle.

Kincrome Measuring Tools

Kincrome offers a comprehensive range of measuring tools, including the Digital Vernier Caliper range. The Digital Calipers are manufactured from stainless steel and include a four way measurement; internal, external, depth and step. The range includes 150mm (6"), 200mm (8") and 300mm (12") calipers and are packaged in sturdy plastic cases.

Other measuring tools featured in this section include Vernier Calipers, Dial Vernier Calipers, Dial Indicators, Magnetic Base, Telescopic Gauges, Micrometers, Steel Rulers and Tape Measures.

Supatool Hydraulic Bottle Jacks

The new range of Supatool Premium Bottle Jacks is now available. This comprehensive Bottle Jack range has been tested to comply with the new 2004 Australian and New Zealand Standard, AS/N22615:2004.

The range includes 10 Bottle Jacks, the smallest starting from a safe working load of 1850kg and the largest size offers a 20,000kg safe working load. Two Squat jacks (10,000kg and 20,000kg) are also offered within this range. Each Bottle Jack is packaged in full colour cartons for maximum sales impact.

Punches

Finkal Punch Range

Centre Punch

- For piercing and marking, or for preparing drill spots in metal and other materials.

Nail Punch

- Set nails in hidden and hard to reach places, and recesses nails into timber for a smooth, flush finish.

Pin Punch

- For driving out and removing already loosened pins and keys after the initial movement by a starter punch.

Hollow Punch

- Create shapes in leather, wood, gaskets and other materials.

Starter Drift Punch

- For loosening frozen or tight pins and knocking out rivets.
- For installing and removing pins and shafts.
- Also used to align holes in two or more pieces.

Cold Chisel

- Used for cutting, shaping, chipping or removing metal softer than the cutting edge of the chisel, such as stone, brick, masonry, concrete, cement, mortar and metal.

- Punches are available individually and in sets.
- All punches have knurled grips for easy and sure handling.
- The striking end of all Centre Punches and Nail Punches has been tempered to prevent the head from shattering during striking.

Finkal Punches are manufactured from hardened and tempered top grade carbon alloy steel. This increases strength and durability, and reduces brittleness and tool stress.

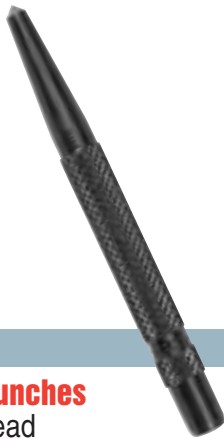

Finkal Punches are proudly made in Australia

New Finkal Wallets

Finkal Punch Sets are presented in new, colourful wallets specifically designed for the Finkal range

Our History

Kincrome Australia Pty Ltd was acquired by Ron Burgoine in 1987, Kincrome is an Australian, family owned distributor of hand tools to the automotive, hardware, retail and industrial markets in Australia, New Zealand, Fiji and Papua New Guinea. In January 2005, Kincrome moved to our new Corporate Headquarters in Scoresby, Victoria, designed specially to incorporate smart technology solutions and leading edge warehouse management systems.

Our Capacity and Capabilities

Our warehouse and distribution area of 8000sqm boasts storage capacity for 8000 pallets and showcases the latest in Supply Chain Management solutions. The facilities include technology assisted picking equipment, conveyer driven delivery systems and automated invoicing and freight confirmation processes. Supported by RF (Radio Frequency) units, our Warehouse Management System runs real time data giving access to up-to-date and accurate information.

Covering an impressive 5000sqm, our external canopy provides protection over our despatch area which features 4 hydraulically assisted container docks, and a truck loading area of 5000sqm for swift transportation of our national orders.

With 10,000 sqm under cover and an expanse of land surrounding the premises, our new Corporate Headquarters provides the facilities required to cater for the operational needs we have today and the capacity for future growth and development.

With over 100 employees Australia wide, Kincrome has sales offices and warehouses in Victoria, Queensland and Western Australia.
